The smart plug-in solution

Application

MT and LT plug-in cabinets

Details

Smart energy & maintenance saving device for plug-in cabinets

- Specially designed algorithm – in partnership with a service company responsible for over 2,5 M plug-in cabinets
- Self learning algorithm
- Prediction of the % efficiency of the condenser
- Cloud data storage
- No more stock losses & loss of trade
- Fast ROI (< 1 year)

30% Energy saving*

40% Extended unit life

< 1 year Return on investment

Advantages

Only service when needed

- On demand cleaning – no need for service contracts
- Service planning to save costs

Easy to install

- No impairment of the guarantee
- Plug & play
- Fast installation
- Intelligent unit – prediction of energy saving & wastage
- Longer life span of units – up to 40%
- Estimate of CO_2 reduction in kg contributing to your CO_2 net zero

Mobile App

- Communication via easy to use app
- For phone, tablet & PC
- Avalable in all languages
- Fast setup
- Energy usage for each plug-in
- Predictive energy use & loss
- Know your total store usage
- Adjustable to all currencies / kW cost

* based on European average Kw/hr cost
