EVALIFT2.0

Application

Supermarkets /
Hypermarkets /
Cash&Carry

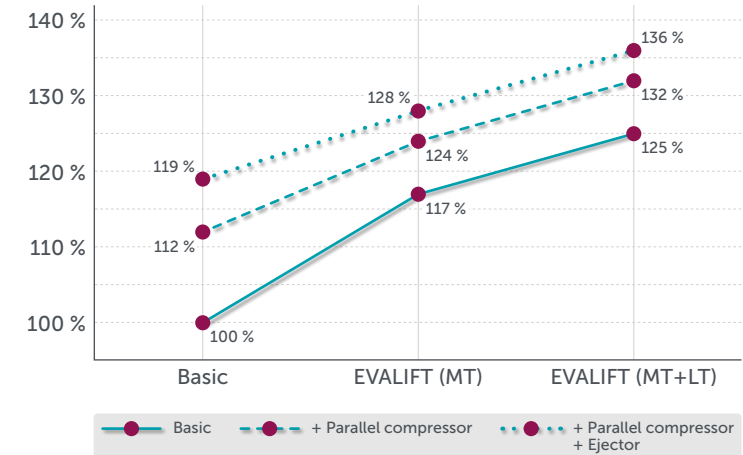

Industrial /
Logistics
Warehouses

MT/LT
Rooms & Cabinets

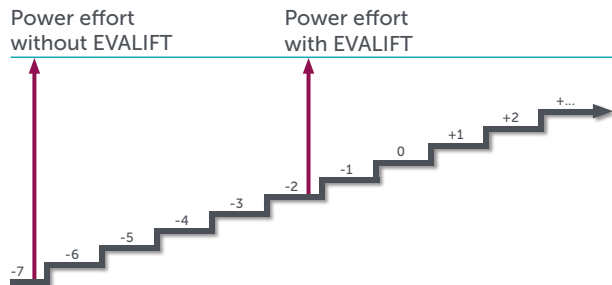

CO₂

Efficiency

Details

- Boost efficiency in the cooling cycle
- Suitable for MT & LT cooling
- Easy installation – no special expertise required
- Patented since April 2019
- Fast return on investment (<2 years)
- Additional benefits:
 - Improved system stability
 - Enhanced operational safety
 - Extended system lifespan

Technology

Features

- Semi-flooded evaporators for higher saturated suction temperatures
- Suitable for all climate zones: subcritical/transcritical, winter/summer, and day/night operations
- Added efficiency increase of LT suction line
- No special requirements for the oil system

Components

- **TECO₂nditioner** for the perfect suction gas conditioning in combination with EVALIFT
- Optimized performance with our intelligent control system
